I make commercial video with generative AI, from idea and shotlist to a finished ad in every format. Since February 2026 I have produced **35+ video campaigns for MOYO**, a Ukrainian electronics retailer, and an AI-double campaign for **Flint Group**. Behind that are 4+ years in advertising design, branding and UI, so every shot is built to sell.

EXPERIENCE

Feb 2026 — now

MOYO AI Video & Motion Designer

Product films and story ads for TV, smartphones, laptops, home and kitchen appliances, each delivered in three formats. I run the whole pipeline: locked assets, shotlist, generation, upscale, After Effects compositing, music and voice-over. Also the opening hook for the MOYO Cyber Cup CS2 promo and automated banner production with Photoshop scripting.
